

CLAIMS

1. A dispensing system for dispensing material onto a substrate, the dispensing
5 system comprising:
a frame;
a support, coupled to the frame, that supports the substrate at a dispensing position in
the dispensing system; and
a dispensing head, coupled to the frame, that dispenses the material onto the
10 substrate, the dispensing head including:
a motor unit having a first motor coupled to an output drive mechanism; and
a dispensing unit, removably coupled to the motor unit, having a material
outlet from which the dispensing material is dispensed, the dispensing unit having a
dispensing mechanism coupled to the material outlet and coupled to the output drive
15 mechanism of the motor unit such that operation of the first motor causes the
dispensing mechanism to dispense material through the outlet.
